

ABSTRACT PREPARATION GUIDELINE

Name1 Surname1¹, Name2 Surname2²

¹*Institute of Mathematics, Czestochowa University of Technology,
Czestochowa, Poland*

²*Institute xxxxx, University xxxxx,
Warszawa, Poland*

¹*name1.surname1@server1.pl, ²name2.surname2@server2.pl*

Keywords: **mathematics, computational mechanics**

Text of the work should be prepared in Word editor for Windows operating system (versions: 2000 above) in English. Capacity: 2 to 6 pages A4, no less than 1500 characters in length. Even page number of the abstract is preferred. Margins on the A4 sheet: top – 3.6 cm, bottom – 6.4 cm, left, right – 4 cm. Title of the abstract: Times New Roman 12 pt, bold, centred, space 12 pt above and 36 pt below the title (style: *SIMI_tyt*). Name and surname of the author (authors): Times New Roman 10 pt, bold italics, centred (style: *SIMI_autor*). Workplace (organizational unit, university, e-mail): Times New Roman 9 pt, italics, centred, space 6 pt above and 18 pt below the workplace (style: *SIMI_miejsce*). Text: Times New Roman 11 pt, text justified on both sides, space between verses: singular, beginning of a paragraph: indenting 5 mm (style: *SIMI_tre*).

Headers should include the name of the conference.

Formulas, e.g. (5), should be created with “Microsoft’s” equation editor or other compatible editor, leaving 9 pt spacing before and after it (style *SIMI_wzor*). Formulas and symbols: italics; matrices and vectors: bold; formula numbering on the right side.

$$ax^2 + bx + c = 0 \quad (5)$$

or

$$\mathbf{A} = \begin{bmatrix} 2 & 1 \\ m_k & \sum_{i=1}^n i^2 \end{bmatrix} \quad (6)$$

Font size within formulas: Basic (Normal): 11 pt, Subscript/superscript: 7 pt, Inferior subscript/superscript: 6 pt, Symbol: 17 pt, Sub-symbol: 11 pt.

Figures and graphs may be created with a discretionary technique in order to provide a legible black and white printout.

Fig. 1. Graph of a function $f(x) = \sin(x)$ oraz $g(x) = \cos(2x)$

Description of figures: Times New Roman 9 pt, centred, spaces 5 pt above and 14 pt below the figure's designation (style: *SIMI_rys*), figures' width cannot exceed 13 cm.

Citing the publication in the form of a book [1] or an article [2] is presented in the section after the word **References**. The list is to be prepared with a 9 pt font (do not use any distinctions, e.g. italics or bold), text is to be justified, numeration must be put in square brackets; references are to be presented according to the sequence of citing (non-alphabetically) (style: *SIMI_literat*).

Literature should be listed in accordance with the examples as below.
